

**Ambulatory Care Self-Assessment Program (ACSAP) Book 3: Neurologic Care and Pain Management
(Cert # L199340)**

Teaser: This Self-Assessment Program series provides Ambulatory Care pharmacists with pertinent therapeutic updates to enhance their practice skills and improve patient outcomes.

Tag: Certifications; Ambulatory Care

ACPE Numbers: Various – see listing below

Pre-Sale Date: 10/23/2019

Release Date: 11/15/2019

Expiration Dates: 05/15/2020

Activity Type: Application-based

CE Credits: 11.5 hours (BPS and ACPE)

Activity Fee: \$75 (ASHP member); \$110 (non-member)

Accreditation for Pharmacists

The American College of Clinical Pharmacy and American Society of Health-System Pharmacists are accredited by the Accreditation Council for Pharmacy Education as providers of continuing pharmacy education.

Target Audience

The target audience for ACSAP 2019 Book 3 (Neurologic Care and Pain Management) is board certified and advanced-level ambulatory care pharmacists who provide comprehensive medication management in outpatient primary care or specialty care settings.

Activity Overview

This course is intended for board certified pharmacists in need of recertification credit and is designed based on the content outline developed by the Board of Pharmacy Specialties (BPS). The course consists of 3 learning modules (see table below) and provides up to 11.5 hours of continuing pharmacy education and/or recertification credit.

Learners will be required to review the content and complete the associated online assessments. The learner must be able to correctly answer the questions based upon their interpretation of the content, as well as “baseline specialty specific knowledge and/or easily retrievable information.” For purposes of this course, “baseline specialty specific knowledge and/or easily retrievable information” is defined as product labeling and well-established standards of practice in the specialty practice.

These activities are part of the ASHP and ACCP professional development program for BCACP recertification approved by the BPS.

Recertification Credit*

Board certified pharmacists are eligible to receive up to 11.5 hours of recertification credit for completing this course. To earn recertification credit, learners must review the activity content and successfully complete the online assessments by the deadline. Only completed assessments will be eligible for credit; no partial or incomplete assessments will be processed. You are allowed only one attempt to successfully complete this assessment.

Learning Activity	ACPE Number	Credit Hours	*Assessment Pass Point
ACSAP 2019 Book 3 (Neurologic Care and Pain Management I)	0217-9999-19-041-H01-P	4.0	70%
ACSAP 2019 Book 3 (Neurologic Care and Pain Management II)	0217-9999-19-042-H01-P	4.5	66%
ACSAP 2019 Book 3 (Neurologic Care and Pain Management III)	0217-9999-19-043-H01-P	3.0	70%

LEARNING OBJECTIVES

ACSAP 2019 Book 3 (Neurologic Care and Pain Management I)

ACPE Number: 0217-9999-19-041-H01-P

Tobacco Use Disorder

- Justify tobacco use cessation efforts through patient education on the harms of continued use and the benefits of tobacco cessation.
- Assess patient readiness to quit, and use appropriate counseling strategies (i.e., assess readiness to quit, use the “5 A’s,” the “5 R’s,” and/or “Ask-Advise-Refer”) to help patients quit smoking.
- Distinguish key information regarding common drugs used to help patients quit smoking.
- Devise an appropriate, patient-specific pharmacologic and nonpharmacologic care plan for tobacco cessation, and adjust the plan for use in special populations.
- Compose an evidence-based recommendation regarding the safety of e-cigarettes and their efficacy as smoking cessation therapy.

Parkinson Disease

- Design a plan to manage motor symptoms for a patient with Parkinson disease (PD).
- Judge therapy adjustments for complications of motor symptom treatments.
- Evaluate the place in therapy for two new medications and three new medication formulations for managing motor symptoms or motor complications for PD.
- Evaluate potential treatments to prevent or delay progression of PD.
- Design a plan to manage nonmotor symptoms for a patient with PD.

ACSAP 2019 Book 3 (Neurologic Care and Pain Management II)

ACPE Number: 0217-9999-19-042-H01-P

Tension-Type, Cluster, and Migraine Headache

- Justify the multidisciplinary team's role in managing headache across primary care and specialty settings.
- Distinguish among the types of headache on the basis of clinical presentation, and describe the corresponding pathophysiology.
- Develop an appropriate treatment plan for a patient with headache, including emerging non-pharmacotherapy, pharmacotherapy, and supportive therapy.
- Assess for and address actionable risk factors for the progression of episodic migraine to chronic migraine.

Musculoskeletal Pain

- Evaluate musculoskeletal pain on the basis of duration and etiology, and apply general principles for managing pain with analgesics.
- Demonstrate appropriate assessment techniques in obtaining a comprehensive pain history in a patient with musculoskeletal pain.
- Distinguish between the nonopioid, opioid, and adjuvant analgesics commonly used to manage musculoskeletal pain.
- Devise a patient-specific care plan for musculoskeletal pain that includes pharmacologic and nonpharmacologic therapies.
- Evaluate the role of chronic opioid therapy for managing musculoskeletal pain and, as appropriate, initiation and discontinuation of chronic opioid therapy.

ACSAP 2019 Book 3 (Neurologic Care and Pain Management III)

ACPE Number: 0217-9999-19-043-H01-P

Recorded Webcast: Opioid Harm Reduction

- Analyze contemporary trends in drug- and opioid-related mortality and morbidity.
- Assess risk of opioid-related harms from prescription and illegal formulations.
- Evaluate effective overdose education and naloxone distribution encounters.
- Evaluate effective sterile injection education and syringe distribution encounters.

Interactive Case: Peripheral Neuropathy

- Evaluate the impact of different medical conditions as they contribute to peripheral neuropathy.
- Assess the benefits and limitations of different medication classes for peripheral neuropathies.
- Design a drug therapy plan for patients with chronic pain from peripheral neuropathy symptoms.
- Justify drug therapy selection for peripheral neuropathies using patient symptoms and desired impact.

Faculty Panel Chair

Lucas G. Hill, Pharm.D., BCPS, BCACP
Clinical Assistant Professor
College of Pharmacy
The University of Texas at Austin
Austin, Texas

Series Editors

Disclosures

In accordance with the Accreditation Council for Continuing Medical Education's Standards for Commercial Support and the Accreditation Council for Pharmacy Education's Standards for Commercial Support, ASHP and the American College of Clinical Pharmacy require that all individuals involved in the development of activity content disclose their relevant financial relationships. A person has a relevant financial relationship if the individual or his or her spouse/partner has a financial relationship (e.g. employee, consultant, research grant recipient, speakers bureau, or stockholder) in any amount occurring in the last 12 months with a commercial interest whose products or services may be discussed in the educational activity content over which the individual has control. The existence of these relationships is provided for the information of participants and should not be assumed to have an adverse impact on the content.

All faculty and planners for ASHP education activities are qualified and selected by ASHP and required to disclose any relevant financial relationships with commercial interests. ASHP identifies and resolves conflicts of interest prior to an individual's participation in development of content for an educational activity. Anyone who refuses to disclose relevant financial relationships must be disqualified from any involvement with a continuing pharmacy education activity.

Consultancies: Anita Jacobson (American Pharmacists Association); Sonya J. Sebastian (Molina Healthcare)

Grants: Ashley Crowl (American Association of Colleges of Pharmacy); Kirk E. Evoy (Arlyn Kloesel Endowment); Anita Jacobson (DHHS/SAMHSA); Heather A. Sakely (Atlantic Philanthropies, John A Hartford Foundation); Thomas Smith (St. Joseph Community Health Foundation)

Honoraria: Anita Jacobson: (American Pharmacists Association); Crystal A. Wright (Georgia Society of Health System Pharmacists)

Missing Forms: Hanna P. Raber: Daniel S. Longyhore: Maureen E. Knell: Roberta M. Farrah

All other planners, presenters, and reviewers of this session report no financial relationships relevant to this activity.

Methods and CE Requirements

Activities consist of educational materials, assessments, and activity evaluations. In order to receive continuing pharmacy education credit, learners must:

- Complete the attestation statement
- Review all content
- Complete and pass the assessments
- Complete the evaluations

Follow the prompts to claim, view, or print the statement of credit within 60 days after completing the activity.

System Technical Requirements

Courses and learning activities are delivered via your Web browser and Acrobat PDF. For all activities, you should have a basic comfort level using a computer and navigating web sites.

View the [minimum technical and system requirements](#) for learning activities.

Development

These activities were developed by ACCP and ASHP.
