Activity Overview
The course was developed by the American College of Clinical Pharmacy (ACCP) and the American Society of Health-System Pharmacists (ASHP) to help oncology pharmacy practitioners prepare for the Board of Pharmacy Specialties (BPS) Oncology Pharmacy Specialty Certification examination and obtain a broad and detailed update to their knowledge of oncology. The course content is based on the domains and knowledge areas tested on the examination. The detailed workbook, filled with patient cases and practice-based self-assessment questions, is an excellent resource for assessing knowledge in several areas of oncology practice.

This course workbook is NOT intended for those obtaining recertification credit. To earn recertification credit, please purchase the full recertification course here: http://elearning.ashp.org/catalog/onc-recert

System Technical Requirements
This workbook is delivered via your Web browser and Acrobat PDF. You should have a basic comfort level using a computer and navigating web sites.
