
AGENDA

THURSDAY, March 2

7:00 a.m. – 7:45 a.m. Breakfast

7:30 a.m. – 7:45 a.m. Welcoming Remarks and Announcements

7:45 a.m. – 8:00 a.m. Exam Studying Tips

8:00 a.m. – 10:00 a.m. Research Design, Statistics, and Evaluating Oncology Literature

Elyse April MacDonald, PharmD, M.S., BCPS

ACPE Number: 0204-9999-23-907-L04-P

Application-based: 2.0 credit hours

Objectives:

1. Evaluate the oncology literature, including study design, identification of sources of bias, methodology, statistical analysis, and applicability of results to clinical practice for the oncology patient population.
2. Interpret the validity and results of various types of oncology studies (e.g., meta-analyses, noninferiority trials).
3. Interpret findings from the use of study endpoints (e.g., objective response, time to progression, adverse events, quality of life, overall survival) in oncology research.
4. Interpret sensitivity, specificity, positive and negative predictive values, measures of effect, correlation, and regression for an oncology study.

10:00 a.m. – 10:15 a.m. Break

10:15 a.m. – 11:00 a.m. Pharmacogenomics in Oncology

Christine M. Walko, PharmD, FCCP, BCOP

ACPE Number: 0204-9999-23-916-L01-P

Knowledge-based: 0.75 credit hour

Objectives:

1. Identify appropriate considerations for genetic interpretation in both the germline and somatic settings utilizing a variety of next generation sequencing techniques.
2. Apply the results from somatic and germline genetic testing into therapy recommendations based on prognostic, predictive and patient characteristics.
3. Recognize the place in therapeutic decision making for companion diagnostic testing.

THURSDAY, March 2 (Continued)

11:00 a.m. – 12:15 p.m.

Lower Gastrointestinal and Pancreatic Cancers

Courtney C. Cavalieri, PharmD, BCOP

ACPE Number: 0204-9999-23-913-L01-P

Application-based: 1.25 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with lower gastrointestinal (GI) or pancreatic cancers.
2. Discuss short- and long-term treatment goals, including post-therapy and survivorship, with a patient with lower GI or pancreatic cancers and his or her caregiver.
3. Select relevant information and guidance for the public regarding lower GI and pancreatic cancer-related issues (e.g., risk factors, prevention, screening).
4. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with pharmacotherapy for lower GI or pancreatic cancers, including chemotherapy-induced diarrhea, hand-foot syndrome, hand-foot skin reaction, neurotoxicity from oxaliplatin, and dermatologic toxicities from epidermal growth factor receptor inhibitors.

12:15 p.m. – 1:30 p.m.

Lunch (On Own)

Participants are invited to bring their lunch back to the ballroom and participate in an interactive Statistics Practice Session with Dr. MacDonald.

1:30 p.m. – 2:30 p.m.

Melanoma and Non-Melanoma Skin Cancers

Ryan Bycroft, PharmD, BCOP

ACPE Number: 0204-9999-23-906-L01-P

Application-based: 1.0 credit hour

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with melanoma or non-melanoma skin cancer.
2. Discuss short- and long-term goals, including post-therapy and survivorship, with a patient with melanoma or non-melanoma skin cancer and his or her caregiver.
3. Select relevant information and guidance for the public regarding melanoma and non-melanoma skin cancer-related issues (e.g., risk factors, prevention, screening).
4. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with the treatment of melanoma and non-melanoma skin

cancers, including thyroid level monitoring for chemotherapy agents, immune-mediated toxicities, and toxicity from BRAF inhibitors.

2:30 p.m. – 3:30 p.m.

Head, Neck, Adult Central Nervous System, and Thyroid Cancers

Christine M. Walko, PharmD, FCCP, BCOP

ACPE Number: 0204-9999-23-902-L01-P

Application-based: 1.0 credit hour

Objectives:

1. Design an appropriate patient-specific treatment, management, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with head, neck, adult central nervous system (CNS), or thyroid cancers.
2. Select relevant information and guidance for the public regarding head and neck cancer-related issues (e.g., risk factors, prevention, screening).
3. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with the treatment of cancers including cancer cachexia, mucositis, and xerostomia.

3:30 p.m. – 3:45 p.m.

Break

3:45 p.m. – 5:15 p.m.

Chronic Leukemias

Karen M. Fancher, PharmD, BCOP

ACPE Number: 0204-9999-23-910-L01-P

Application-based: 1.5 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration relevant molecular biology testing, genomic information, efficacy and safety outcomes from clinical trials, and current treatment guidelines for patients with chronic leukemia.
2. Develop an appropriate plan for preventing, monitoring, and treating infusion-related reactions from monoclonal antibodies used in the treatment of hematologic malignancies.
3. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with pharmacotherapy for the treatment of cancers, including toxicities from tyrosine kinase inhibitors used to treat hematologic cancers.

FRIDAY, March 3

7:00 a.m. – 7:45 a.m.

Breakfast

7:30 a.m. –9:00 a.m.

Multiple Myeloma

Donald C. Moore, PharmD, BCPS, BCOP, DPLA

ACPE Number: 0204-9999-23-915-L01-P

Application-based: 1.5 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current guidelines for patients with multiple myeloma.
2. Evaluate oncology pharmacy services for compliance with established REMS regulations and standards.
3. Develop an appropriate plan for preventing, monitoring, and managing common problems associated with the treatment of cancers, including bone metastases, thromboembolism, hypercalcemia of malignancy, and spinal cord compression.

9:00 a.m. – 9:45 a.m.

Upper Gastrointestinal and Hepatocellular Carcinomas

Courtney C. Cavalieri, PharmD, BCOP

ACPE Number: 0204-9999-23-905-L01-P

Application-based: 0.75 credit hour

Objectives:

1. Design an appropriate patient-specific treatment, management, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with esophageal, gastric, or hepatic malignancies.
2. Assess the impact of pharmacogenomics on the efficacy and toxicity of relevant anticancer agents used for gastrointestinal malignancies.
3. Develop an appropriate plan for preventing, monitoring, and treating radiation recall and other complications of radiation therapy.

9:45 a.m. – 10:00 a.m.

Break

FRIDAY, March 3 (Continued)

10:00 a.m. –12:00 p.m.

Oncology Practice Management

Christopher Fausel, PharmD, M.H.A., BCOP

ACPE Number: 0204-9999-23-914-L04-P

Application-based: 2.0 credit hours

Objectives:

1. Evaluate oncology pharmacy services for compliance with established regulations, professional practice standards, and procedures for safe handling, administration, and disposal of hazardous drugs.
2. Select quality-improvement activities that enhance the safety and effectiveness of the medication-use process in oncology patient care.
3. Explain national accreditation and federal regulatory requirements for the care of cancer patients receiving chemotherapy or other hazardous drugs.
4. Explain medication reimbursement and patient assistance programs to optimize drug availability for oncology patients.
5. Evaluate policies and procedures related to conducting research involving investigational drugs, including drug management in patients with cancer.

12:00 p.m. – 1:15 p.m.

Lunch (On Own)

1:15 p.m. – 2:00 p.m.

Adult Sarcomas

Colleen McCabe, PharmD, BCOP

ACPE Number: 0204-9999-23-904-L01-P

Application-based: 0.75 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, management, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for adult patients with sarcoma.
2. Adjust treatment and monitoring plans as needed based on the tumor genetics and pharmacokinetics of anticancer and supportive-care agents (e.g., methotrexate).
3. Develop an appropriate plan for preventing, monitoring, and managing common problems associated with the treatment of adult patients with cancer, including neurotoxicity from ifosfamide and hemorrhagic cystitis.

FRIDAY, March 3 (Continued)

2:00 p.m. – 4:45 p.m.

Breast Cancer (including a 15-minute break within the session)

Danielle Roman, PharmD, BCOP

ACPE Number: 0204-9999-23-900-L01-P

Application-based: 2.5 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with breast cancer.
2. Discuss short- and long-term treatment goals, including post-therapy and survivorship, with a patient with breast cancer and her or his caregiver.
3. Determine appropriate pharmacotherapy for a patient with breast cancer based on genomic test results.
4. Identify appropriate diagnostic and prognostic tests related to breast cancer.
5. Select relevant information and guidance for the public regarding breast cancer-related issues (e.g., cancer risk factors, prevention, screening).

SATURDAY, March 4

7:00 a.m. – 7:45 a.m.

Breakfast

7:30 a.m. – 8:45 a.m.

Hematopoietic Cell Transplantation

Lauren Ice, PharmD, BCOP, BCPS

ACPE Number: 0204-9999-23-911-L01-P

Application-based: 1.25 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current guidelines for patients undergoing hematopoietic Cell Transplantation (HCT).
2. Apply appropriate strategies to prevent and treat toxicity from chemotherapy agents employed in HCT conditioning regimens.
3. Create a plan for prevention and management of acute and chronic graft-versus-host disease (GVHD) using appropriate systemic and ancillary therapies.
4. Discuss short- and long-term treatment goals, including post-therapy and survivorship, with the patient undergoing HCT and his or her caregiver.

8:45 a.m. – 9:45 a.m.

Gynecologic Malignancies

Alexis R. Jones, PharmD, BCOP, CPP

ACPE Number: 0204-9999-23-901-L01-P

Application-based: 1.0 credit hour

Objectives:

1. Design an appropriate patient-specific treatment, management, and monitoring plan taking into consideration efficacy and safety outcomes of clinical trials and current treatment guidelines for a patient with a gynecologic malignancy.
2. Discuss short and long-term goals, including post-therapy and survivorship, with a patient with a gynecologic malignancy and her caregiver.
3. Select relevant information and provide guidance for the public regarding gynecologic malignancy-related issues (e.g., risk factors, prevention, and screening).

9:45 a.m. – 10:00 a.m.

Break

SATURDAY, March 4 (Continued)

10:00 a.m. – 11:45 a.m.

Lung Cancer

Janelle Mann, PharmD, BCOP

ACPE Number: 0204-9999-23-912-L01-P

Application-based: 1.75 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with lung cancer.
2. Select relevant information and guidance for the public regarding lung cancer-related issues (e.g., risk factors, prevention, screening).
3. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with pharmacotherapy for lung cancer.

11:45 a.m. – 1:00 p.m.

Lunch (On Own)

1:00 p.m. – 2:00 p.m.

Bladder, Renal Cell, and Testicular Cancers

John Bossaer, PharmD, BCPS, BCOP

ACPE Number: 0204-9999-23-903-L01-P

Application-based: 1.0 credit hour

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with bladder, renal, or testicular carcinomas.
2. Discuss short- and long-term treatment goals, including post-therapy and survivorship, with a patient with bladder, renal, or testicular carcinomas and his or her caregiver
3. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with the treatment with tyrosine kinase inhibitors and mTOR inhibitors.

SATURDAY, March 4 (Continued)

2:00 p.m. – 3:15 p.m.

Lymphomas

Karen M. Fancher, PharmD, BCOP

ACPE Number: 0204-9999-23-909-L01-P

Application-based: 1.25 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan to include effectiveness, toxicities and outcomes, based on the most current guidelines for patients with lymphoma.
2. Assess the prognostic impact of relevant cancer-related molecular biology testing.
3. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions associated with pharmacotherapy for lymphoma and other cancers, including chemotherapy-induced pulmonary toxicities and extravasation.

3:15 p.m. – 3:30 p.m.

Break

3:30 p.m. – 5:00 p.m.

Adult Acute Leukemias and Myelodysplastic Syndromes

Anthony Perissinotti, PharmD, BCOP

ACPE Number: 0204-9999-23-908-L01-P

Application-based: 1.5 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for adults with acute leukemia or myelodysplastic syndrome.
2. Assess the prognostic impact of relevant cancer-related molecular biology testing for an adult with acute leukemia or myelodysplastic syndrome.
3. Develop an appropriate plan for preventing, monitoring, and treating adverse reactions from pharmacotherapy for acute leukemia and myelodysplastic syndrome in an adult, including tumor lysis syndrome, neurotoxicity, differentiation syndrome, and cardiac toxicity from arsenic trioxide, and other agents as appropriate.
4. Determine appropriate pharmacotherapy for acute leukemia or myelodysplastic syndrome in an adult based on genomic test results.

5:00 p.m. – 5:10 p.m.

Closing Remarks

RECORDED-ONLY TOPICS

In addition to the programming presented live, there will be three additional presentations (3 credit hours total) available in an audio-recorded format prior to the live course. The presentations are as follows:

Cancer-related Infectious Diseases

Jessica Auten, PharmD, BCOP

ACPE Number: 0204-9999-23-918-H01-P

Application-based: 1.0 credit hour

Objectives:

1. Design an appropriate patient-specific management and monitoring plan to address potential infection-related problems that may arise during and following cancer treatment based on current guidelines for treating cancer-related infectious diseases.
2. Discuss short- and long-term treatment goals, including post-therapy, with a patient with cancer-related infectious disease and his or her caregiver.

Pediatric Malignancies and Supportive Care

Jennifer Young, PharmD, BCOP

ACPE Number: 0204-9999-23-917-H01-P

Application-based: 1.25 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for pediatric patients with cancer.
2. Assess the prognostic impact of relevant cancer-related molecular biology testing for a pediatric patient with cancer.
3. Discuss with a pediatric patient who has cancer and his or her caregiver the short- and long-term treatment goals, including post-therapy and survivorship.
4. Assess the regulatory, ethical, and patient rights issues related to conducting research, including informed consent and confidentiality.

Prostate Cancer

Brette Conliffe, PharmD, BCOP

ACPE Number: 0204-9999-23-904-H01-P

Application-based: 1.25 credit hours

Objectives:

1. Design an appropriate patient-specific treatment, supportive care, and monitoring plan taking into consideration efficacy and safety outcomes from clinical trials and current treatment guidelines for patients with prostate cancer.
2. Discuss short- and long-term treatment goals, including post-therapy and survivorship, with a patient with prostate cancer and his caregiver.
3. Select relevant information and guidance for the public regarding prostate cancer-related issues (e.g., risk factors, prevention, screening).

**2023 ACCP/ASHP Oncology Pharmacy Specialty
Review and Recertification Course**
